WORDS WORTH

Listening
Speaking
Reading
Writing

Proiciency in a language is built over time, through a process of cognitive learning and interactive practice. Listening, speaking, reading and writing are the key skills in language acquisition and learning. Language primarily develops from listening and speaking. Listening and speaking skills when nurtured to the full have a positive and marked effect on the learners of English as a second language.

Words Worth English Language Lab is a platform where comprehensive and interactive digital content catering to listening and speaking skills is put to use in a stimulating lab environment.

- ✿ The distinctive program pedagogy includes rich training support for learners as well as trainers.
- ✿ The role of an instructor (Guru) in a language skill enhancement class is critical. The methodology adopted, hence, is a perfect blend of Instructor-Led Training (ILT) and Computer-Based Training (CBT).

Keeping the importance of a teacher in mind, Words Worth English Language Lab sessions ensure teacher-learner interaction in the class. The human touch and the wealth of knowledge and experience that a teacher brings into the classroom combine with the rich content of Words Worth Language Lab to provide an effective learning experience for the learner.

- ✿ The structured approach takes language learners through an organized process of gradual learning.
- ✿ The system ensures a stress-free environment with high-quality digital content that supplements the academic syllabus.
- ✿ The software allows learners a private environment for self-paced practice.

KEY AREAS

Words Worth is by far the only English language lab that not only augments vocabulary, but also focuses on the finer nuances of language like grammar, pronunciation, intonation, modulation and semantics. Learners learn without any fear or embarrassment, and the process helps build their confidence and proficiency in the language.

▪ ASL

A benchmark model for the Assessment of Speaking and Listening Skills to teach, enhance and evaluate learners' proficiency in English as mandated by the CBSE

▪ Fluency

Audio/visual applications and simulated interactions to improve fluency

▪ Understanding The Native Speaker

Training learners to be able to comprehend native speakers

▪ Listening Skills

Content rich audio/visual exercises along with classroom activities, gradually taking listening skills from simple to complex levels

▪ Pronunciation

Correct pronunciation of consonant and vowel sounds with correct stress patterns of syllables, imparted through use of phonetics

▪ Pace Of Speech

Cultivation of speech that is slow enough to be clearly understood and fast enough to be interesting

▪ Speech Sounds

Correct pronunciation of consonant and vowel sounds with correct stress patterns of syllables

▪ MTI

A focused effort to overcome pronunciation differences caused by 'Mother Tongue Influence' (MTI)

▪ Tackling Indianisms

Correction of errors caused by direct translation from one's mother tongue into English

▪ Intonation

Polishing English by mastering variations in volume, pitch, speed, pause and stress

▪ Vocabulary

Vocabulary in increasing complexity, by way of semantic grouping and highly contextualized usage

▪ Grammar

Natural, everyday scenarios used to inculcate functional grammar skills

Young Learners

Words Worth Young Learners, a programme designed for school children, runs parallel to, and complements the school curriculum each year. It progresses through eight levels of advancement. Each module comprises 40 hours of intense language training, alternating between ILT and CBT sessions.

- ✧ Enhancement of spoken English skills
- ✧ Practising English using everyday scenarios
- ✧ Acquisition of vocabulary through integrated learning
- ✧ Pronunciation practice using phonetics
- ✧ Gradual advancement of English language skills through a structured programme
- ✧ Language skills gradually upgraded from A1 to C2 level over an eight-module course
- ✧ Integrated functional grammar
- ✧ Extensive listening and speaking practice
- ✧ Fun-filled method of lesson delivery
- ✧ A blended learning programme
- ✧ As per international standards
- ✧ Caters to the needs of ICSE/CBSE

ASL

The Words Worth Assessment of Speaking & Listening (ASL) programme is designed around the mandatory English language proficiency test implemented by the CBSE. The course features specially created content to meet the test's stringent requirements. The software helps teachers in conducting and recording the actual test, and also provides them with ample teaching material for enhancing learners' speaking and listening skills.

- * Based on the norms laid down by the CBSE
- * Extensive teaching material to enhance learners' speaking and listening skills
- * Audio-based articles imparted through ILT and CBT sessions
- * Content and guidelines for the teacher to facilitate steering the learners towards better listening and speaking skills

- * Trainers' Aid for conducting Assessment of Speaking and Listening
- * Ample listening and speaking activities
- * Additional practice exercises included in CBT sessions
- * ASL content from classes 6 onwards, to give learners a head start for the assessment

- * Provision to record sessions into the software itself
- * No devices or external software needed for recording
- * Recordings of multiple students possible
- * Provision to save recordings for future reference
